Volume 2, December 2008

Journal Philosophy, Editorial Team and contributors

Journal Philosophy

The *European Journal of Homelessness* provides a critical analysis of policy and practice on homelessness in Europe for policy makers, practitioners, researchers and academics. The aim is to stimulate debate on homelessness and housing exclusion at the European level and to facilitate the development of a stronger evidential base for policy development and innovation. The journal seeks to give international exposure to significant national, regional and local developments and to provide a forum for comparative analysis of policy and practice in preventing and tackling homelessness in Europe. The journal will also assess the lessons for Europe which can be derived from policy, practice and research from elsewhere.
